On last Thursday evening 150 guests were present at the feast obligatory, "Extinguishng the Lights," celebrated by the Knights Rose Croix of the Ancient and Accepted Scottish Rite Masons in Masonic hall. This night is the most conspicuous in the calendar of the rite, and the ceremonies then elebrated are open to and participated in only by Scottish Rite Masons

The impressive ceremonial was formed in the large hall, which was beautifully adorned with lilies, roses and evergreen under the direction of Wise Master William Heburne, 33d degree; and Grand Marshal of Ceremonies H. C. Alkin, 33d degree. As soon as the ceremonies were completed the guests marched in double file into the banqueting chamber, where a supper had been spread in commemoration of the Lord's last supper. An excellent menu had been pre pared for the occasion by the ladies of St Mathias' church. At the conclusion of the supper the following toasts were responded to, the teastmaster being Louis M. Modern Woodmen of America. While all of the Modern Woodmen of Omaha and South Omaha are more or less interested in the coming session of the head camp, which will meet in Madison, Wis., June 4, and also in making arrangements to entertain the Nebraska delegates to the head camp just before the start for the bi-ennial ession, the members of Beech camp 1454 are mindful of their own growth and resperity, and are working hard to build their camp and increase their numbers is rapidly as the times would warrant. Last Friday evening they initiated four more members into the mysteries of the order, and the excellent work of the foresters in their new uniforms was commented upon by all who had not had the pleasure of seeing their ritualistic work. The camp officers and foresters are in better condition for the fina-work of initiation than ever before, and vie-

bers a very fine entertainment in the very near future, and members who do not begin from All Saints' church, Gate City Cricket chub, and Minnessota Cricket club of St. Paul.

Improved Order Heptasophs. Omaha conclave No. 334, of the forproved Order of Heptacophs, has been holding very enthusiastic meetings since the organizaion, last January, and the prospect is that tions at the next meeting. The ritualistic work is very simple and impressive, with very little of the "buffoonery" so common in initiatory work. The session of the supreme conclave will meet in New Haven, Conn., the latter part of May, and there will be much done to advance the work of the order

in the west, and in the near future it will be a very common thing to meet the "Genial Heps." The order is organized principally for fraternal insurance, and when it is beer known the membership of the order will be on the rapid increase. Exemplifying of Eastern Star Degrees. The ladies of Harmony chapter No. 25, Order of the Eastern Star of Council Bluffs. Ia., will exemplify the degrees of "A La Lease Female Masonry" in the grand lodge room at Masonic temple, Sixteenth and Cap-itol avenue, Saturday evening, April 20. The entertainment will be given under the auspices of Vesta chapter No. 6, Order of the

Eastern Star, of this city. Many new fea-tures have been added since last produced in Council Bluffs and South Omaha and a number of the representative members and friends from our of town are expected. The "Masonic goat" will be there and aid in conferring the degrees on some distinguished and well known people. The entertainment is very laughable and mirth-provoking in the extreme. All Masons and their friends are cordially invited.

UNEARTHED A REPOLTING CRIME. Eight-Year-Old Child Assaulted, Murdered

and Buried in a Manure Pile. BOSTON, April 13.-The most revolting rime known in Boston in many years was ancarthed by the police of Dorchester district late this afternoon, when the body of Alice Sterling, the 8-year-old daughter of George W. Sterling of Savin Hill, was found buried in the manure pile of a stable on the Dennis estate. The little girl's skull had been crushed in by a heavy blow from an axe, and there were unquestionable indications that she had been assaulted.

Angus D. Gilbert, night station agent of the Savin Hill station of the Old Colony division of the New York, New Haves & Hart-ford, is under arrest, charged with the crime. George Sterling, who is a hairfresser, re-ported to the police at midnight Wednesday last that his little daughter had disappeared lass that his little daughter had disappeared some time during the afternoon while Mrs. Sterling and other members of the family were away from home. Searching parties looked all day Thursday, but could find no trace of her. Officers Persins and Smith were given charge of the case, and yesterday the latter was informed by Miss Edith Reid that she had seen from her readdence a man that she had seen from her readdence a man that she had seen from her residence a man with a red moustache and light overcoat lead-ing the little Sterling girl down the railroad From the description the officers decided the man they wanted was Gilbert, the night station agent at the epot. In the day time he worked for G. W. Emmons. He slept in an old stable on the Dennis estate nearby, and Miss Reid stated she was positive the man went in this direction. The officers this afternoon insti-tuted a search of the premises surrounding both the Dennis estate and the Emmons blace. During the search Gilbert was found work at the Emmons place and was placed

The old stable was then searched. Two old towels and bloody rags were found in Gilbert's room. When the manure pile was searched Officer Perkins struck a human foot. A body was puffed out and identified as Alice Sterling. Her skull was crushel and the cause of her death was apparent. Her clothing was torn, showing the motive of the crime. A bloody axe was found nearby. oncealed under a beam. An autopsy will seld Monday. Gilbert would not admit a rime, but when brought handcuffed to vi crime, but when brought handcuffed to view the body he trembled like an aspen leaf. Gil-bert is rather stout, almost six feet fall, and is 28 years old. He came from Musquedo-bert Harbor, Nova Scotia, over a year ago, and was considered a good business man. Miss Reld, who furnished the clue, and an-other wayner, living reachy called at the ther woman living nearby, called at the dation late tonight and positively identified he prisoner as the man they saw with the little girl on Wednesday. Mrs. Sterling is prostrated over the affair, and is in a preca-rious condition. Gilbert was an acquaintance of Sterling, and consequently was not unknown to the child.

## BLAZE IN ILLINOIS CAPITOL

Looked for a Time as Though the Senate Wing Would Be Destroyed.

FIREMEN HAMPERED BY LACK OF WATER

Greatest Damage Was Done to Papers and Documents by Water-Enrolling Room of the Senate Thoroughly Soaked.

SPRINGFIELD, Dr., April 13.—The Dilnois

\$5,000,000 statehouse caught fire in the senate

wing shortly after noon today, and in a few moments it looked as if that nortion would be gutted. The fire is supposed to have originated in one of the committee rooms, but from what cause is not yet known. An slarm was at once turned in, and two steam and one chemical engine responded. Fire Marshal Fountain soon discovered he would be unable to control the fire with the force at his disposal, and so turned in a general alarm, calling for all the engines in the city The fire spread rapidly, and soon the whole mmense building was filled with smoke, so that it was with great difficulty that the firefound their way through the labyrinth of hallways and rooms of the upper part of the capitol. The wing of the building where fire was raging was where the auditor the treasurer and the offices of the agricul-tural board and insurance commissioner were located. At once, when the fire broke out, wild confusion prevailed among the clerks and soon the halls were filled with excited girls and women. The chiefs of departments remained cool, however, and in a few minutes all of the valuable papers and records were locked up in the fire proof vaults. Asistant Treasurer Whittemore at once ordered his clerks to lock up all the money and the books of his office, and then, with them, beat a hasty retreat. In Auditor Gore's office maters did not run so smoothly. In the department many women were employed, and they became badly frightened, increasing the confusion. With much difficulty the books, papers and records were bundled into vaults. CONTINUED TO SPREAD.

Meantime the fire continued to spread. There were not enough fire plugs near the state house to keep the engines working so the firemen labored at a great disadvantage. While the state house has been regarded as practically fireproof, the floors of all committee rooms and partitions are of wood, and, being extremely dry, burned like tinder. The fire was probably started from tin-ners' stoves, a large force of tinners having seen sent upon the roofs today to make repairs. It is said they left their stoves when they went to dinner. A gale of wind was blowing during the fire and the firemen seemed to be unable to cope with the flames Captain William Sands, custodian of the apitol building, said while the fire was in progress that there were heavy fire walls be-tween the west wing and the main building and there was no danger of the fire reaching the dome. He also said that there was no possible chance for the fire to reach the south ing of the state house.

At 2 p. m. the firemen had the flames un-er control. It is estimated that the damage the senate wing of the state house will mount to from \$75,000 to \$100,000. Most of the damage will result from smoke and water.

At 2:15 p. m. the fire had been entirely subdued, but the senate wing of the state house was flooded with water. The state library escaped with slight damage. The room occupied by the enrolling and engrossng committee was flooded, and it is believed that many important bills passed by the senate have been destroyed. Should this be the case it will require a vast amount of extra work on the part of that body. As here was no insurance, the entire loss will

Secretary of State Henrichson was at the state house when the fire broke out and took an active hand in aiding the firemen in putting down the fire. At one time the fire looked so serious that Adjutant General Orendorff and his assistant, Colonel Bayle, who occupy rooms in the south wing, ordered the janitors to pack up

the Illinois battle flags of the late war and building was filled with smoke, and no one save the firemen at work could tell how serious the fire was. All of the west side of the roof of the north wing of the senate chamber is ruined.
